GUIDANCE ON INSTALLATION

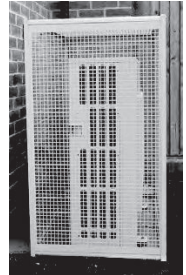

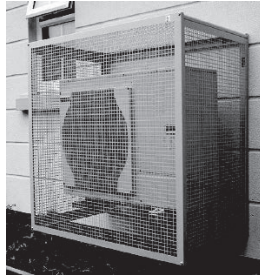

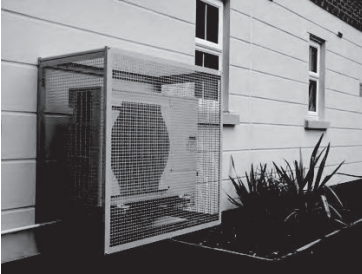

Whilst this product is sufficiently robust for its purpose, it is not designed to be load-bearing, and should not be used to support excessively heavy items.

HIGH-WALL MOUNTING UNITS

Additional base panels are available for a high-wall mounted installation, these should be installed before fitting the front panel and is installed in the same was as the top panel.

FREE STANDING, FLOOR-MOUNTING UNITS

Additional back panels are available and can be fitted for a free-standing, floor-mounting option. This simply replaces the wall frame and is secured with nuts, bolts and washers.
